Eldership Ministry- Warning Against Seasons of Weariness

*Weariness: extreme tiredness or fatigue; reluctance to see or experience any more of something.*

As Elders, seasons of weariness may manifest when we're \_\_\_\_\_, in a \_\_\_\_\_, or needing to make a \_\_\_\_\_. The enemy wants you to believe that you're "stuck" and not progressing as quickly as you should be progressing. In times like these you may experience some of the following symptoms; your spiritual ears are \_\_\_\_\_, your discernment becomes \_\_\_\_\_, your tongue may be tempted to speak negatively and you don't experience a tangible presence of the Spirit of God on a regular basis. It's at these low points that we begin to question our Church \_\_\_\_\_ and spiritual leaders.

BUT IT IS IMPERITIVE to keep our trust in the \_\_\_\_\_. To operate in these unpleasant manifestations, is like giving the enemy a high five!
