

THE EXPLOSIVENESS
OF THE HOLY SPIRIT

What defines an explosion?

An explosion is defined as the rapid increase in volume and release of energy in an extreme manner.

Or, *“AN EXPLOSION IS THE RESULT, NOT THE CAUSE, OF A RAPID EXPANSION of gases.*

—

1. To see an
EXPLOSION,
we need to
be set on

FIRE.

Revelation 3:15-16

For I know thy works, that thou art
neither cold nor hot:

I would thou wert cold or hot.

¹⁶ So then because thou art **lukewarm**,
and neither cold nor hot, I will spue
thee out of my mouth.

2. The church must be careful handling the fire.

Leviticus 10:1-2

Now Nadab and Abihu, the sons of Aaron, each took his censer and put fire in it and laid incense on it and offered unauthorized fire before the Lord, which he had not commanded them.

2- And fire came out from before the Lord and consumed them, and they died before the Lord.

—

3. The
Explosion
must draw
attention to
God, not to
any man.

John 12:42

Nevertheless among the chief rulers
also many believed on him; but
because of the Pharisees they did not
confess him, lest they should be put
out of the synagogue:

⁴³ For they loved the praise of men
more than the praise of God.

4. The explosion for the last days must maintain a brightness and not quickly turn to smoke.

Leviticus 6:13
The fire shall ever be burning
upon the altar;
it shall never go out.
